

HOYS 2010

This year we were lucky enough to have another great show.

Saturday started with Rocky confirming his dislike of the International Arena, however Sligo Lucky and Emos Jessie were stars and jumped their hearts out. Both ponies were very unlucky, Lucky jumped a great first round and in the jump off had the fastest time but had the second part of the double down. This left them in sixth placed. Mean while Jessie jumped a great first round over a strong track but unfortunately had the last fence down leaving them in fifth place. We were delighted with both the ponies and Emily.

Sunday again had highs and lows!

It started with a high, Noble Tureen Lass(Mell) winning the Underwood 133cm WHP. We were absolutly thrilled with her and it was an emotional finish to Emily and Mell's partnership - Mell now moves to her new family and this was their last round together. What a way to finish!

Horse of the Year Show 2010

that the first horse to be ridden by a woman was a white horse named 'The White Horse' and the first horse to be ridden by a man was a black horse named 'The Black Horse'.
